

User Stories (starter)

Four starter stories with draft acceptance criteria live in `acceptance_criteria.md`. Add at least 4 more stories yourself — good candidates: warehouse FEFO picking, GM supplier review, Priya's audit-readiness, Mel's complaint SLA view.

US-01 — Expiry visibility

As an **Operations Manager**, I want to see which batches are expiring soon so that I can reduce stock write-offs and prevent expired products from being dispatched.

US-02 — Document compliance

As a **Quality & Compliance Coordinator**, I want to identify batches with missing or expired supplier documents so that I can follow up with suppliers before products are sold.

US-03 — Recall contact list

As a **Sales Team member**, I want to know which customers received an affected batch so that I can contact them quickly during a product issue.

US-04 — Recall exposure value

As a **General Manager**, I want to see the recall exposure value for a selected batch so that I can understand the financial and operational risk to the business.

US-05 —

As a **Warehouse Lead**, I want ... so that ...

Story quality checklist (INVEST)

- ☐ Independent, Negotiable, Valuable, Estimable, Small, Testable
- ☐ Each story maps to at least one business requirement (BR-xx)
- ☐ Each story is testable via the acceptance criteria in `acceptance_criteria.md`
